

Thank You

Through the Years

Your donation to the Guthrie County Hospital Foundation is a powerful statement! It says *you care* very much about the people around you because it helps your *friends, neighbors and family* to access quality, compassionate health care close to home. We believe that supporting our foundation is one of the best ways to invest in the future strength and availability of excellent healthcare services in Guthrie County. Regardless of its size, each gift is sincerely appreciated and is used in a careful and caring manner.

Nurse's Station Remodel

In October of 2013, due to the generous donations received in response to the 2012 Annual Appeal, the Nursing Department excitedly held a Ribbon Cutting Ceremony to reveal their newly remodeled Nurse's Station. The updated station provides more work space and better privacy when working on patient records. The new area allows for a more efficient work flow including a private Doctor Dictation room, nursing break room, and supply and equipment storage. With the advancement in technology and implementation of electronic health records this updated space was crucial in creating an environment conducive of greater patient care.

Courtesy Van Program

Generous continued contributions have allowed Guthrie County Hospital Foundation to sustain the Courtesy Van Program. The Courtesy Van program runs Monday thru Friday and transports qualified individuals from their home to doctors appointments and various hospital events.
