Each Sunshine Award honoree will be recognized at a public ceremony and receive: a personalized certificate, a Sunshine Award pin, and a hand-made wooden sunshine plaque. Each plaque is hand-made and intricately woven locally. The woven part of the plaque symbolizes the inextricable link between the CNA and RN staff. Each one is an integral member of the team. When woven together just right, the sunshine (CNAs) can perfectly support the DAISIES (RNs). Together, they create an environment in which our patients can flourish and thrive.

Want to Say Thank You To Your CNA?

Share *Your Story!*

The Sunshine Award is exclusive to GCH. Spawned from a desire of the nurses to recognize the CNA staff, the Sunshine Award has been established. Considering how DAISIES require sunshine to flourish and thrive, so is the case for the nurses. Without our CNA team, the daily job of patient care would not be a reality. Help us recognize the remarkable CNAs we have on staff. Please say thank you by sharing your story of how a CNA has made a difference you will always remember.
